Open the box.  
Plant the prairie.  
Enjoy the magic.

Our Pocket Prairie Garden-in-a-Box brings the wild beauty of the historic Texas prairie right to your yard—designed for real life, real heat, and real pollinator in need.

Regionally native plants are having a major moment (and for good reason Regionally native plants belong here. They evolved in our soils, endure our droughts, and sustain the butterflies, bees, hummingbirds, and songbirds that depend on them.

But as open land gives way to subdivisions, these plants — and the wildlife they support — are disappearing. This box of plants makes it simple to be part of the solution.
