- 🌿 **Covers up to** 125 sq. ft
- 🌿 **Exposure:** Plant in Full Sun to Part Shade for best results. (Minimum of 5 hrs direct sun per day)
- 🌿 **Duration:** Colorful blooms from Spring to Fall, plus year-round foliage interest

GREGG'S MISTFLOWER

Conoclinium greggii

If you were to choose one plant for attracting butterflies and native pollinators, Gregg's mistflower is hard to beat! In late spring through fall powdery blue flower clusters almost completely cover the tops of its lacy green foliage. It is so adaptable and easy to grow, it often forms a tall groundcover which works as a virtual stop sign for fall migrating monarchs.

Plant Type	Perennial	Bloom Time	Late Spring through Fall
Mature Height	1–2 ft	Character	Deciduous
Plant Spread	2–4 ft	Sun Exposure	Full Sun to Part Sun
Flower Color	Lavender Blue	Water Needs	Low

PITCHER SAGE

Salvia azurea

A clump-forming Texas native perennial known for its whorls of two-lipped, azure blue flowers. It grows easily in average, dry to medium, well-drained soil and prefers sunny locations. Drought tolerant and deer resistant. For a more compact shape and to prevent stems from flopping, cut the plant back by up to half in late spring. Stems are more likely to flop when over watered.

Plant Type	Perennial	Bloom Time	Late Spring through Fall
Mature Height	3–5 ft	Character	Deciduous
Plant Spread	2–3 ft	Sun Exposure	Full Sun to Part Shade
Flower Color	Sky Blue	Water Needs	Low

HENRY DUELBURG SALVIA

Salvia farinacea

'Henry Duelberg' produces highly ornamental upright spikes of dark lavender blue flowers that bloom spring to fall. This wild-selected nativar is a reliable drought tolerant perennial and has become somewhat of an industry standard for its long-blooming super showy flowers, adored by gardeners and pollinators alike.

Plant Type	Perennial	Bloom Time	Spring through Fall
Mature Height	2–3 ft	Character	Deciduous
Plant Spread	2–3 ft	Sun Exposure	Full Sun to Part Sun
Flower Color	Deep Blue	Water Needs	Low

WILD BERGAMOT

Monarda fistulosa

Also know as bee balm this Texas native perennial is highly adaptable and produces long blooming whorls of pink to lavender flowers that attract a number of pollinators and hummingbirds. It's leaves have historically been used to make a tea, which is how it got it's common name.

Plant Type	Perennial	Bloom Time	Spring through Summer
Mature Height	2–4 ft	Character	Deciduous
Plant Spread	2–3 ft	Sun Exposure	Full Sun to Part Shade
Flower Color	Lavender Pink	Water Needs	Low to Moderate

FALL ASTER

Symphyotrichum oblongifolium

A native perennial aster that produces dazzling purple mounds of fragrant daisy-like flowers with yellow center disks. Easy to grow and provides an outstanding floral display in cooler months, just in time for the monarch migration.

Plant Type	Perennial	Bloom Time	Fall through Winter
Mature Height	1–3 ft	Character	Semi-evergreen
Plant Spread	2–3 ft	Sun Exposure	Full Sun to Part Shade
Flower Color	Lavender Purple	Water Needs	Low

ENGELMANN DAISY

Engelmannia peristenia

Long-blooming Texas native with cheerful yellow flowers and a deep taproot that thrives in heat and drought. Blooms open each morning and close by afternoon, drawing bees and butterflies from spring through summer, while coarse silvery-green foliage keeps its low mound attractive even when it's not blooming.

Plant Type	Perennial	Bloom Time	Spring through Fall
Mature Height	1–3 ft	Character	Semi-evergreen
Plant Spread	1.5–2 ft	Sun Exposure	Full Sun to Part Shade
Flower Color	Yellow	Water Needs	Very Low to Low

CHOCOLATE FLOWER

Berlandiera lyrata

Texas native wildflower with cheerful daisy-like blooms that release a distinctive chocolate fragrance, especially in the morning. Long-blooming, heat tolerant and excellent for pollinators.

Plant Type	Perennial	Bloom Time	Late Spring through Fall
Mature Height	1-2 ft	Character	Deciduous
Plant Spread	1-2 ft	Sun Exposure	Full Sun to Part Shade
Flower Color	Yellow	Water Needs	Low

TEXAS BLAZING STAR

Liatris pycnostachya

Vertical spikes of purple flowers covered in butterflies and native bees during late season. Dramatic flower spikes add striking height and texture to the garden, standing out even among other bloomers nearby. Easy to grow in average soil and remarkably drought tolerant once established, it's a reliable performer that rewards minimal care with maximum pollinator traffic.

Plant Type	Perennial	Bloom Time	Summer through Fall
Mature Height	3-5 ft	Character	Deciduous
Plant Spread	1-2 ft	Sun Exposure	Full Sun to Part Sun
Flower Color	Purple	Water Needs	Low

BLACK-EYED SUSAN

Rudbeckia hirta

Classic native wildflower with bright golden-yellow, daisy-like blooms surrounding a dark brown center. Long blooming and highly attractive to pollinators.

Plant Type	Perennial	Bloom Time	Summer to Fall
Mature Height	1-3 ft	Character	Deciduous
Plant Spread	1-2 ft	Sun Exposure	Full Sun to Part Sun
Flower Color	Golden Yellow	Water Needs	Low

NARROWLEAF CONEFLOWER

Echinacea angustifolia

A hardy, drought-tolerant North Texas native perennial that features slender, lance-shaped leaves and distinctive drooping purple to pink daisy-like flowers with a spiny, cone-shaped center. Blooming from late spring to summer, it attracts pollinators like bees and butterflies.

Plant Type	Perennial	Bloom Time	Spring through Summer
Mature Height	1–2 ft	Character	Deciduous
Plant Spread	1–2 ft	Sun Exposure	Full Sun to Part Sun
Flower Color	Pink Lavender	Water Needs	Very Low

RATTLESNAKE MASTER

Eryngium yuccifolium

Often hard to find in nurseries, this striking North Texas native evergreen perennial is a bit of an enigma with its unusual yucca-like foliage and showy white thistle-like blooms. Spring, summer and fall this tough Texas native provides a striking show for both people and pollinators.

Plant Type	Perennial	Bloom Time	Late Spring through Summer
Mature Height	3–5 ft	Character	Deciduous
Plant Spread	2–3 ft	Sun Exposure	Full Sun to Part Sun
Flower Color	White Green	Water Needs	Low
